FOR USE UPON RECEIPT — 2007

Quattro Light Modules, New From Jesco Lighting, Inc.

New Product Introduction: Quattro Modules — wall-mounted single- and multiple-unit ADA-compliant light modules.

Design: Jesco Lighting, Inc. In-House Lighting Design & Engineering Team.

Manufacturer: Jesco Lighting, Inc., “the future of lighting fixtures.”

Product Applications: Quattro Modules provide crisp, white ambient/ accent light in a modern, lasting design aesthetic. They are ideal for use as accent or auxiliary ambient lighting in art galleries and merchandise showrooms, hospitality venues, upscale retail, building entryways, lobbies and corridors, other commercial, institutional, high-end residential bathrooms and vanities. Units can be grouped to form repeating patterns of light and wall designs.

Product Description: Quattro Modules present a series of square wall-mounted light modules that are post-modern design, compact and unobtrusive. Single or multiple light units are characterized by a thick clear glass lens with a frosted center front panel. The lensing softens and diffuses emitted light, without obscuring it. Because lenses project from the backplate, the impression is that glass squares are hovering over a wall surface.

Fixtures are offered in single-, dual-, triple- and quad-unit models. Their squared and rectangular design lends itself to group installations, for a contemporary yet understated alternative to wall-mounted track lighting. Bi-pin halogen lamps provide high-output illumination.

Jesco Introduces Quattro Modules . . . page 2

Construction & Finishes: A polished chrome finish provides reflectance that complements the emitted light. Glass, chrome or birchwood finish options are available. Birchwood trim options can be custom stained. Cast glow lenses are secured to housings via four corner-mounted screw-in knobs, finished to match the housing.

Quattro Modules can be specified in line- or low-voltage models. They are UL and CUL listed, Americans with Disabilities Act (ADA) compliant.

Ordering Information: Literature, specifications and pricing for **Quattro Modules** is available from Jesco Lighting, Inc., 66-25 Traffic Avenue, Glendale, New York 11385. Telephone: (718) 366-3211.
