

FOR USE UPON RECEIPT — 2011

## **New Energy-Conserving Illuminated Mirrors From JESCO Back-Lit With LEDs Or T5 Fluorescents**

### **New Product Introduction: Back-Lit**

**Mirrors** — large-scale square and rectangular wall-mounted mirrors, in two factory-standard, energy-conserving illumination choices: LEDs, or T5 linear fluorescent light sources. Either provides abundant white light, at very low wattage with long, maintenance-free operating life. The minimalist design of these wall mounted mirrors provides high function, flattering visual clarity and makes a lasting design statement.

**Design:** JESCO Lighting In-House Lighting Design and Engineering Team.

**Manufacturer:** JESCO Lighting Group, founded 1998.

**Product Applications: Back-Lit Mirrors** are geometric, add value to the interior design and décor of any bathroom, bedroom, vanity or wall space in hotels, resorts, private clubs, casinos or homes. Ideal for use in restrooms in restaurants, bars, hotel lobbies, recreation areas, guest rooms, locker rooms; healthcare, assisted living and long-term care facilities; entryways, bathrooms, bedrooms, corridors, dining and living rooms.

**Product Description: Back-Lit Mirrors** — Visually memorable square and rectangular mirrors with high color rendition white light in complimentary effect. 2.5 watt to 21 watt LEDs; or 2 x 14 watt T5 to 2 x 14 watt plus 2 x 35 watt T5 linear fluorescents surround mirrored surfaces and are unseen behind white translucent glass borders.

**Construction & Finishes: Back-Lit Mirrors** with LEDs have average 50,000-hour life; T5 linear fluorescents average life is 20,000 hours. Light placement behind the mirror makes cleaning easy, eliminates damage, breakage or injury typical to exposed light sources. Special glazing and diffusion of the glass makes light output more effective, optimizes viewer comfort, clarity of peoples' images.
