

FOR USE UPON RECEIPT — 2011

New Colors For Guzuntight Lighting From JESCO Are Nothing To Sneeze At

New Product Line: Guzuntight — a strikingly colorful collection of contemporary, original-design, hand-slumped “Phuzed” glass pendants, shaped like draped handkerchiefs. Now with “cool,” “warm,” transparent and opaque colors.

Design: Industrial designer Orfeo Quagliata, in conjunction with the Jesco In-House Lighting Design and Engineering Team.

Manufacturer: JESCO Lighting, Inc.

Product Applications: Guzuntight provides combination nonglare ambient direct and diffused accent illumination, within colorfully striped eye-catching designs. Each model works across a range of decorative interior applications.

These include building lobbies, reception rooms, corridors, conference and meeting spaces; corporate dining rooms and executive suites; healthcare waiting rooms; hospitality venues; and upscale residential interiors.

JESCO Introduces New Guzuntight Colors . . . page 2

Product Description: **Guzuntight** pendants are characterized by individually colored lighting designs, with aesthetical continuity. The pendants look like striped and other brilliantly colored draped and folded glass handkerchiefs that are unique at any time, but especially come to life when illuminated.

The mid-scale, curved, smooth-edged glass shades fill with diffused light and radiate it with a subtle, colored iridescence. Polished metal suspension rods and matching domed canopies, at the top of the pendant and on the ceiling, contribute to the overall aesthetic.

Guzuntight pendants employ single xenon low-voltage bi-pin 50-watt lamp.

Construction & Finishes: **Guzuntight** pendants are constructed of unusual slumped "Phuzed" glass shades, with aluminum fittings in satin nickel and chrome finishes. Each model is UL and CUL listed.

The new **Guzuntight** colors consist of:

- Blue Opaque (blue-greens)
- Transparent Blues (blues)
- Black/White Opaque
- Red Opaques (yellow-orange-red-purple)
- White Opaque
