JESCO Is Decidedly *Not* Playing Games, When It Comes To New Qubert Pendant Lights

New Product Introduction: Qubert — a collection of original contemporary-design, hand-blown, hand-colored and formed Quick-Adapt glass pendant cubes, “phuzed” with striated cylindrical bands of rectilinear and polymorphic colors.

Qubert refers from memory to a squat, orange-colored video-game protagonist from the early 1980s, known in the product designer’s childhood.

Design: Award-winning industrial and lighting designer Orfeo Quagliata, in conjunction with the JESCO In-House Lighting Design and Engineering Team.

Manufacturer: JESCO Lighting Group

Product Applications: Qubert pendants provide combination nonglare ambient direct downward and diffused accent outward illumination, within memorable eye-catching designs. Each model works across a broad range of decorative interior applications. They adapt quickly to the popular JESCO Monorail low-voltage track lighting, in single-rail straight or bendable, “T-“ or “X-“shapes, or to in-ceiling canopies.

Typical installations include building lobbies, reception rooms, corridors, conference and meeting spaces; corporate dining rooms and executive suites; healthcare waiting rooms and offices; hospitality venues; upscale retail; and fine residential interiors.

JESCO Introduces The Qubert Pendant Collection . . . page 2

Product Description: **Qubert** pendants are characterized by *individually* hand-blown, hand-colored and formed saturated translucent glass lighting designs, with aesthetical continuity. The curved and smooth-edged cubed glass shades fill with diffused light and radiate it with a subtle, colored iridescence. Polished metal track or ceiling suspension rods, or matching domed canopies on the ceiling, contribute to an overall refined aesthetic.

Qubert pendants employ a single energy-efficient, long-life xenon-gas low-voltage bi-pin 35-watt lamp, for lighting continuity.

Construction & Finishes: **Qubert** pendants are constructed of hand-blown, formed and colored glass shades, with aluminum fittings in satin nickel or chrome finishes. The model is UL and CUL listed. **Qubert** is offered in amber, black, blue, organic, purple, and white.
