

FOR USE UPON RECEIPT — 2010

JESCO INTRODUCES LED LIGHTING THAT IS SLEEK . . . PLUS!

New Product Introduction: Sleek Plus

LED, Model S601. Very low watt, surprisingly high performance modular, linear LED light units, in the industry's smallest, most adaptable diameter. Simple plug-in connector installation in a slender, low-scale design that fits small or concealed commercial or residential interiors.

Design: JESCO Lighting In-House Lighting Design and Engineering Team.

Manufacturer: JESCO Lighting Group, founded 1998.

Product Applications: Sleek Plus LED S601 mounts easily in a wide range of applications designed for contractor or DIY under cabinet, under counter and under shelf lighting installations. Well suited for bookcases and shelves; china, glassware, and in audio/video and merchandise display cabinets; commercial and residential bar shelves; product showrooms; museums and galleries; antiques and artwork displays; natural or man-made indoor coves; armoires and headboards; office workstations and more.

Product Description: Sleek Plus LED S601 is a 3/8-inch-diameter, 8- or 12-inch plug-in "Slim Stix" unit. LEDs may be ordered in a choice of 2.06 watts for eight-inch lengths, or 3.1 watts for 12-inch lengths. They have an average 50,000-hour life, a 5-year warranty; no UV, IR or hazardous mercury. Simple screw-on brackets hold the LED lighting units in place and plug-in adapters make all electrical connections. Clear lensing assures full, even light output while protecting LEDs and their printed circuit board, when cleaning and wiping shelves, cabinetry and the and the like.

Construction & Finishes: Housings are extruded aluminum with a protective lens covering lamps and printed circuit board; ideal for use in high-traffic, high-capacity project interiors.
