

FOR USE UPON RECEIPT — 2011

JESCO DEBUTS LED HEADBOARD SPOT LIGHTS

New Product Introduction: LED Headboard Spot Lights

— two modern headboard lighting designs with a choice of six lighthoods, creating light for residential, hotel, resort, assisted living, hospital patient rooms and residential applications

Design: JESCO Lighting Group In-House Lighting Design and Engineering Team.

Manufacturer: JESCO Lighting Group.

Product Applications: LED Headboard Spot Lights yield functional, directional, aesthetical low-cost installations in wood or metal bed headboards, armoires; closets; in, on or under display cabinets and shelves; at nurses stations, office workstations, reception desks; in bars, casinos, clubs, restaurants; alongside hanging art, decorative objects, sculpture, plaques, selected signage.

Product Description: LED Headboard Spot Lights have upward- or downward-pointing infinitely adjustable, aimable high-output illumination. A gooseneck arm focuses light without annoying spillover, waste, glare or television screen reflections. Cylindrical, tapered, square or disc-shaped metal lighthoods on matching bendable metal stems, are attached to flat wall plates with integral red indicator lights, or to semi-cylindrical surface-mounted junction-box housings.

Construction & Finishes: LED Headboard Spot Lights are brushed aluminum metal construction with smooth, finished surfaces and concealed connections. Units fit over standard in-headboard or in-wall j-boxes.
