

FOR USE UPON RECEIPT — May, 2017

## **JESCO Adds Adjustable, Small-Scale, Square- and Round-Shaped Recessed Downlight Line, Designed For New Construction Use**

**New Product Introduction: RLET-P351** (3 ½" round),  
**RLET-P355** (3 ½" square), **RLET-P401** (4" round), **RLET-P405** (4" square)

**Premier LED Recessed Downlights** — designed specifically for new construction, each 3-1/2" and 4", round or square, architectural grade LED adjustable downlight is available in 15W or 20W for Insulated and Non-Insulated Ceilings.

**Design:** JESCO Lighting Group In-House Product Design and Engineering Team.

**Manufacturer:** JESCO Lighting Group, an American company founded 1998.

**Product Applications: Premier LED Recessed Downlights** are well suited for any commercial, institutional or residential application where adjustable, high-performance, energy-saving lighting solutions are sought. Facility users and owners will benefit from dramatic, fully-dimmable, pure-white lighting; and from significant long-term energy, maintenance and replacement cost savings.

**Product Description: JESCO Premier LED Recessed Downlights** use high-lumen, COB LEDs and are available with three different, field-replaceable reflectors for focusing light into 16°, 24° and 43° beams. Special trim fittings allow for four specific lighting applications – fixed straight down, adjustable beam angle, adjustable beam pinhole and wallwash. Integrated high-efficacy LEDs, combined with dimmable drivers and high-transmission optical diffusers ensure uniform light output for either model. The 3 ½" versions are available with an IC or a non-IC housing. The 4" versions offer an architectural as well as an IC & non-IC housing. **Premier LED Recessed Downlights** comprise a minimalist design that complements commercial, retail, and upscale residential interiors — and virtually disappears into surroundings.

## **JESCO Adds Premier Recessed Downlights** . . . page 2

For new construction or remodels, **Premier LED Recessed Downlights** are offered in 120V and 277V and are thermally protected for mounting within insulated ceilings. JESCO Lighting's unique, patent-pending, inrush current protectors further increase lifespan of each luminaire's LED and dimmer.

**Construction & Finishes:** **RLET-P351-15** offers a 3 ½" diameter trim. **RLET-P355-15** offers a 3 ½" square trim. **RLET-P401** offers a 4" diameter trim. **RLET-P405** offers a 4" square trim. Round trims are available in White with either Haze or White reflectors. LEDs may be specified in 2700K, 3000K, 3500K or 4000K CCT with a 90CRI to meet a wide range of interior illumination requirements.

Additional innovative qualities for JESCO **Premier LED Recessed Downlights** include:

- Estimated output of 1296 lumens from 15W and 1915 lumens from 20W
- Advanced die cast aluminum heat sink provides superior thermal management for 50,000 hours of operation with 70% lumen maintenance.
- Integral thermal protector to sense over-temperature or internal failure.
- Dimmable with a Triac, ELV, CFL/LED or 0-10V controller.
- ETL listed, Energy Star rated; indoor dry/damp-location listed; five-year warranty standard.
