

FOR USE UPON RECEIPT — August 2017

JESCO Introduces Radianz
“BATT-LI” Portable Power-
Supply Units: Stand-alone
power for retail display kiosks,
exhibits, and gondolas *minus*
confines of location-adjacent power sources.

New Product Introduction: **Radianz BATT-LI Portable Power-Supply Units** — compact, convenient, lithium-ion battery packs in three watt-hour capacities that power JESCO Radianz 12V, 24V or 350mA LED light fixtures *without* any limitations of proximity to permanent or temporary hardwired power sources.

Design: JESCO Lighting Design and Engineering Team.

Manufacturer: JESCO Lighting, Inc., a U.S. design-lighting manufacturer established 1998.

Product Applications: **Radianz BATT-LI Portable Power-Supply Units** are ideal power solutions for permanent or interim stand-alone retail display exhibits, kiosks, window displays, aisle-end gondolas and the like. They give lighting designers the freedom to plan for maximum traffic flow, without the constraints of needing to be near a power source. **Radianz BATT-LI** allows easy relocation as needs change over time, *without* incurring rewiring costs.

Applications include commercial retail merchandise exhibits, gondolas, kiosks, islands; trade-show booths, window displays jewelry cases; museum displays and much more.

Product Description: **Radianz BATT-LI Series** lithium-ion portable battery packs are available in three rechargeable capacities; 100Wh, 150Wh, and 266Wh.

JESCO Debuts Radianz BATT-LI Portable Power Supply . . . page 2

They easily power JESCO 12V, 24V or 350mA LED interior light fixtures, at exceptionally low costs per watt hour.

Each user-friendly **Radianz BATT-LI** contains Plug & Play power connections, an on/off switch, a four-level charge indicator and an audible low-battery warning. Each battery is standard with a plug-in charger that fully charges a unit to 100% in 3 to 5 hours, based on unit capacity.

Construction & Finishes: Radianz BATT-LI Portable Power-Supply

Series is available in three sizes and capacities:

- **Radianz BATT-LI-12V** measures 5-5/16" H x 3-1/16" W x 1" D, weighs 1.9 lbs. It has a capacity of 100Wh fully charges in 3 hours, and includes a 5V USB port with a maximum output of 2A, for charging phones and tablets.
- **Radianz BATT-LI-24V** measures 5-7/8" H x 4-15/16" W x 1" D, weighs 2.4 lbs. It has a capacity of 150Wh, fully charges in 4 hours, and includes a 5V USB port with a maximum output of 2A, for charging phones and tablets.
- **Radianz BATT-LI-350mA** measures 9-13/16" H x 5-7/8" W x 1-3/8" D, weighs 4.4 lbs. It has a capacity of 266Wh and fully charges in 5 hours.
