

FOR USE UPON RECEIPT — 2017

Jesco Debuts Radianz Series SD107 Vertical And Radianz SD183 Horizontal Showcase/Display Luminaires With New Carbon Fiber Finish

New Product Introductions: Radianz SD107 Vertical and Radianz SD183 Horizontal Showcase/Display Luminaires — ultra energy-conserving, high output, miniaturized adjustable LED showcase and display lighting. Luminaires available with five new **Carbon Fiber Finishes**.

Design: JESCO Lighting Group In-House Product Design and Engineering Team.

Manufacturer: JESCO Lighting Group, founded 1998.

Product Applications: Radianz SD107 Vertical and Radianz SD183 Horizontal adjustable LED showcase and display lights are suited for a broad range of designed commercial and residential installations for jewelry; collectibles; art; retail merchandise; museum and gallery displays; and display cases.

Designed specifically for use wherever low-scale, discrete, *aimable* LED lighting is sought, both **SD107** and **SD183** provide effective, dramatic, very long-life interior white-lighting solutions, within a context of exceptionally low-watt energy consumption requiring no routine maintenance. LEDs emit no UV or IR rays and contain no mercury, protecting the objects in a space or display case.

Product Description: Radianz SD107 is a high output, vertical fixture with an adjustable light head with three LEDs that allows aiming of light within a 90° arc.

SD107's body can rotate up to 350° and is available in heights of 8-, 12- and 20-

JESCO Debuts SD107 and SD183 with Carbon Fiber Finish . . . page 2

inches. Custom heights are an option. 3-watts produce 418 lumens overall, 140 lumens per watt.

Radianz SD183 is a stem-mounted horizontal, high output LED fixture, available in lengths of 12-, 24- 36- and 48-inches and stem heights of 8-, 12- and 20-inches.

SD183's light head can rotate 90°, a frosted lens cover reduces glare. Custom lengths and stem heights are options. LED output options include 6.5-watt LEDs that provide 525 lumens/ft or 8-watt LEDs that provide 650 lumens/ft.

Construction & New Finishes: Radianz SD107 and Radianz SD183

are made from durable non-corroding, easily cleanable, die-formed aluminum with tempered glass lensed LEDs. Stainless-steel screws hold each light body base securely. LEDs are available in white with high color temperature outputs of 3000°K, 4000°K, or 5000°K.

Standard in Silver, Black and Polished Silver finishes, both **Radianz SD107** and **Radianz SD183** are now available in JESCO's five new **Carbon Fiber Finishes** of Gold, Silver, Blue, Red and Black. When wrapped in the woven **Carbon Fiber**, both **SD107** and **SD183** provide an elegant addition to any display. The hinges and knuckles are also specifiable in Polished Aluminum, Chrome, Black and Gold finishes. Other custom finishes are available – send swatches for matching.
